

Industry: Communications
Application: Data Concentrator
Summary: This 150 Watt power card provides N+1 redundancy with hot swap capability for critical on-line applications.

Specifications

Input: -36 to 176 Vdc
Output: +5 Vdc @ 30 Amps
Total Power: 150 Watts
Dimensions: 3.75W" x 9.2"L x 2.4"H
Operating Temp. Range: -40 to +50°C
Cooling: Convection
Other Features: N+1 Redundancy
Active Current Sharing
Undervoltage Lockout
Internal Temperature Reporting
Fault Monitor
Active Current Sharing
Current Limit
Overvoltage Shutdown

F1011: Data Concentrator Power Supply
